

## You Needn't Be a Millionaire

Dressing well doesn't necessarily imply spending more than you can afford.

Of course you can pay a lot for clothes if you want to, but why pay for more value than you actually get?

We've always made it a point to put in the things that are highest in quality and most reasonable in price.

In men's clothes, for example. What better can be had than Clothcraft at \$10 to \$20 and Hart Schaffner & Marx \$20 to \$30

It's the same all the way down the line. Shirts, hats, socks, collars, underwear--every thing you buy here is bound to please because you feel that it is worth every cent you pay for it.

Our new Spring styles are awaiting your approval.

THE CLOTHCRAFT STORE IN THIS TOWN

## OUR NEIGHBOR BRODHEAD

By "J. M."

Brodhead, 50 years ago (1867). There was at any such place on the Kentucky map; tho there was one log house on a spot some four hundred yards north west of where the depot now stands in that live town, occupied by Dick Woolyard. The writer drove thru, over the Wilderness road, from Mt. Vernon to Crab Orchard in the above year. The railroad was being graded at that time. Boone's fork church was flourishing then, it was located about one third of a mile from Dick's river on the Wilderness road toward Mt. Vernon. Later the congregation moved to Brodhead and the old two story, historic, building was dismantled and was no more. The writer suggests that a memorial marker be erected at the spot showing the location of this famous old church.

Just 50 years after his first trip over this route, in a buggy, the writer took a spin, in the Signal Editor's Ford, over the Boone Way, from Mt. Vernon to Brodhead the station which received its name from a contractor who was engaged in the construction of the railroad. While it is known the highway is not yet macadamised, a well graded roadbed is found between the above points, having sp'ed concrete bridges and culverts.

E. O. Faris was the first railroad agent at Brodhead. He later

ly died at Silver Creek where he had been agent nearly 40 years. Larkin Hicks, the oldest citizen of Brodhead came to that place in 1874. No other citizen is living there today who was there in that year, with the exception of our good friend Jeremiah G. Frith who located there near about that time and has grown up with the town. James W. Tate arrived on the grounds in May 1877 from Garrard county and has been one of the town fixtures since that time in its up-building.

David Hurt, one of the writer's boyhood companions and playmates came to Brodhead in 1875 and was section foreman for the larger number of those years. This splendid man and citizen died on 21st of January last, tho the writer did not learn of it until his trip to Brodhead last Monday. It was indeed a shock to hear of his taking off.

At the post office we found Danie Owens holding the mails assisted by Miss Recca Brooks. Dannie was a little disturbed over the loss of his American flag. Said he thought some German sympathizer had hogged it.

J. R. Cass was found at depot. By the way that depot is not exceeded in plans and convenient arrangements by any station on the L. & N., city or communities.

Since the new depot and platform was erected it seems that business has drifted mostly to west side of track and along Boone Way street.

R. H. Hamm who did business

for years next door to Frith Hotel is one of the movers to west side. He is splendidly located in a new building just opposite Citizens bank and is catching his part of the trade. The editor and "J. M." are indebted to "Teed" for presents in the way of an American flag button, each.

Brodhead's drug store, J. F. Watson, proprietor is now located in the Jim Albright store house building on east side of track.

Shafer & Roberts occupy the Dick Martin storehouse at the end of the bridge. They carry a line of general merchandise.

W. H. Sowder's store is first on west side of track, on Boone Way. Will is just as clever and friendly as ever.

A. E. Albright's store is just across the street, where Ed can be found by his numerous friends and customers at nearly all hours dishing out the goods.

Next door is the business house of the late J. M. Adams. The store is being continued by his widow, W. J. Owens, chief clerk "Chuck Frith," sometimes known as "C. H." and at others as the "oil king" is an egg and produce buyer. Old hams, just lots of them, were hanging from the ceiling of his warehouse. We failed to persuade him to allow us to remain with the hams while he went to depot to do some bill ing. Maybe he had a "suspicion." Some people are that way you know. Queer.

Owen Cass does second trick work and Charlie Hurt third at depot. They are both splendid and accom-

modating business boys.

Next up the street from "Chucks" stand is the Citizens Bank, presided over by that sterling cashier A. M. Hiatt with Miss Miranda Tate assistant. Brodhead and surrounding territory's people are mighty proud of their bank and its management.

W. E. Gravely's general merchandise establishment is found one door west of the bank. This establishment evidently gets its share of the patronage.

Wallin's barber shop is one door east of post office, next to railroad. This is a clean sanitary shop and gets a fine run of custom which it deserves.

The store nearest Crab Orchard is that of John Rovins, the efficient and faithful Signal reporter. It is located on the lot where the old Cherry storehouse burned some time ago. Mr. Robins has a nice clean stock of general merchandise and his host of friends are giving him a deserved patronage.

Mrs. D. B. Albright has charge of the Frith Hotel and is conducting a splendid hostelry.

Mrs. J. M. Clark is still running the lunch house which she has so successfully conducted for a number of years.

J. T. Lawrence is preparing to open up a store one door west of R. H. Hamm's place of business.

Hamp Reynolds and Candy Jim Owens are the blacksmiths and they usually keep their anvils ringing (whether work is going on or not).

Walter Smith is the garage

man and does the business.

B. T. Young is conducting a successful produce house on West Boone Way.

The Rockcastle Milling Co., under the charge of our good old friend John Riddle assisted by other Riddles, is doing a nice business and deserve to do so, they are mighty good people.

Brodhead is the home of Tony Brooks (who is usually in charge of a floating gang on railroad). Tony is one of the counties best men.

Brodhead has the credit of establishing the first graded school in Rockcastle. The fact is that she is always in the forefront in establishing and pushing enterprises for the general good.

The friendly rivalry existing between Brodhead and the county seat, in business and other affairs is pitched on a different plane to what it was a few years since. There was a time when jealousies and bickerings were indulged in between some of the boys of the two places, but happily they learned that such things "never got them anywhere," they changed front and use that which is more popular and profitable "reciprocity," and find it a greater asset than following the old line of procedure.

Brodhead and its citizens are a live pushing, patriotic and progressive people.

## ROCKCASTLE PATRIOTIC LEAGUE

Chairman C. C. Williams of Magisterial district No. 2 (West Mt. Vernon) held a meeting at Cove school house and organized the workers County Chairman Dr. M. Pennington and secretary were on hands. The following District executive Committee were elected Louis McGuire, W. C. Johnson, Jesse Fish, G. C. Fish, and S. P. Caudle. There were more than a hundred interested people present all of whom promised to work enthusiastically in the farming cause. The next meeting will be held at Langford school house on Monday night May 8th, 7:30. Wildie Tuesday night, Conway, Wednesday night, and Maple Grove, Thursday night of same week. Everybody invited and requested to come.

District Chairmen are requested to hold meetings in various portions of their territory during the coming and following weeks. This is highly important before it is too late to get out full and bigger crops.

There is great interest in the Patriotic League movement throughout the county.

Rockcastle was among the first to start county and district organizations along this line.

All farmers, in fact everyone in our county should take a personal interest in this the most important question now before the country. It is war times and no one can predict what is before us, probably actual hunger if everyone doesn't do his full duty in working and to waste nothing.

Rockcastle should raise enough to supply her own needs or she may possibly suffer for the reason that the great demand for soldiers may cause such a scarcity that prices may become prohibitive, followed by such times as we have never experienced before.

Talk to your neighbor seriously on this crop subject and have him pass the word on so we may avert disaster and hunger.

Every citizen should consider himself a committee of one to push this movement.

County Chairman Dr. M. Pennington has designated every citizen, men, boys, women and girls of our county a member of the Rockcastle Patriotic League and hopes and requests each and every one will be working members.

### ROCKCASTLE PATRIOTIC LEAGUE

To the end that our county should do its bit during these perilous times an organization of our people is being made, to be known as the Rockcastle Patriotic League. Its object being to get everyone interested in the question of putting in and cultivating larger crops and gardens, the raising of live stock and poultry, and the practice of economy in all food products and everything pertaining to the sustenance of life and its comforts. To work, preserve and SAVE as has never been practiced before.

After the Patriotic meeting held at Mt. Vernon on 23rd April a Central Executive Committee was named for the purpose of organizing two branches of Leagues in each Magisterial district within the county with Dr. M. Pennington, Chairman, Dr. A. G. Lovell vice chairman and James Maret, secretary, R. F. Spence, (of Berea) Field Agent.

Organizations have been made at Livingston, Disputanta, Conway, Orlando, Cove, Brodhead and other points and it is desired to get all the districts fully organized by middle of next week and to push the good work along.

This is one of the most important moves started in our county since the talk of war began. County Agent Spence, who will act in connection with his government work, as field agent for our League and will prove a most valuable acquisition to the ranks. He has been been working in the harness along these lines, in a portion of this county for past three years and what he has accomplished in the work is a big surprise to everyone learning of what has been done by this untiring representative of Uncle Sam.

In organizing branches of the league each district or division will have a chairman and five executive Committeemen, so arranged as to cover the various portions of their district. The duty of these, and all other members is to preach agriculture and do a good part of the work themselves. Consult with your preacher, have him mention this work in his sermons and talk to the people, visit neighbors encourage them to increase their crops and refuse to sell any brood sows, mares or ewes to go out of the county.

The county agent will spend two thirds of his time in this county aiding and assisting in this great work. As soon as the five magisterial districts have been organized a meeting will be held at Mt. Vernon in which the chairman and five members of executive committee of each district are expected to be present for consultation. Information and advice will be given to them as to best manner of procedure in the work.

It is suggested that later these

clubs become permanent, after the manner of community clubs like those at Conway, Cove, Orlando, Disputanta etc., which have accomplished great good in ways of better cultivation, introduction of better grades of stock and poultry, fertilization etc. Interesting articles on the value of community clubs and what has been done by them in Rockcastle will appear in the Signal often in the future.

A branch of the League was organized at Disputanta last Wednesday with Hardin Moore as chairman and the executive committee as follows: W. M. Barnett, Jones Durham, R. L. Payne, Richard Moore, H. M. Mink and Tom Mullins.

Brodhead held its meeting on Saturday afternoon last and placed A. M. Hiatt as chairman and named the executive committee, Oscar Hamm, Gay Roberts, J. W. Moore, C. C. Metcalf, Logan Hasty, Sam Chandler.

It is expected that each committee will call meetings at his nearest school house and get in touch with all the farmers, encouraging them to push things with a vim this season.

Executive Committeemen will receive due notice of date of proposed meeting at Mt. Vernon.

Farmers desiring bulletins on subject of corn, wheat, rye, oats, gardens, live stock etc, should address County Agent, Berea, Ky. These will be gladly furnished free of charge.

### PROPER FOOD FOR WEAK STOMACHS.

The proper food for one man may be all wrong for another. Every one should adopt a diet suited to his age and occupation. Those who have weak stomachs need to be especially careful and should eat slowly and masticate their food thoroughly. It is also important that they keep their bowels regular. When they become constipated or when they feel dull and stupid after eating, they should take Chamberlain's Tablets to strengthen the stomach and move the bowels. They are easy to take and pleasant in effect.
